

Data Science Competition

Waseda University

- Predict the results of Japan's Upper House election -

Presentations & Award ceremony

Date & Time | **July 27** (Sat), 2019
2:30pm - 5:30pm Doors open at 1:00pm

Place | **Bldg 14 - 201**

Reception to follow from 18:00 at Okuma Garden House.

The objective of this competition is to create the most accurate prediction for Japan's Upper House Election scheduled in July 2019. Teams may create their models using any publicly available data to predict the vote shares for the PR tier and the election outcome for candidates in the district tier of the election. The winners will be determined by the accuracy of the predictions and the evaluation of the prediction model by a panel of judges. Forecasts must be submitted before the polling day. Teams are not allowed to publicly disclose their election forecasts until the election is over.

Timeline

July 4	July 20	July 21	July 27
Election officially called	Deadline for file submission	Election Day	Presentations and award ceremony; reception

Prizes

Grand Prize : 100,000 yen
 SPSE Prize : 50,000 yen
 ITOCHU Techno-Solutions Corporation Prize
 ADK Holdings Inc. Prize
 Data Science Fes 2019 Prize
 Hitachi, Ltd. Prize
